Goods with high fiscal risk.....2

Amendments explained in more details:

Key words:

- RO e-Transport System
- July 1st, 2022
- Goods with high fiscal risk which are road transported

Goods with high fiscal risk

- ❖ The **RO e – Transport System** has the role of monitoring the transport on the national territory of goods with high fiscal risk and applies to goods that are the subject to import operations and intra-community acquisitions, domestic transactions, intra-community supplies, or export operations, as well as intra-community transactions in transit.
- ❖ According to Order no. 802/2022, **the goods with high fiscal risk**, road transported, which are monitored through the RO e-Transport System are:
 1. *Vegetables, plants, roots and tubers, foodstuffs, falling within CN codes 0701 to 0714, inclusive;*
 2. *Edible fruit, citrus peel or watermelon, falling within CN codes 0801 to 0814;*
 3. *Beverages alcoholic beverages and vinegar falling within CN codes 2201 to 2208, inclusive;*
 4. *Salt, sulfur, earth and stone, plaster, lime and cement, falling within CN codes 2505 and 2517;*
 5. *Apparel and clothing accessories, knitted or crocheted falling within CN codes 6101 to 6117, inclusive;*
 6. *Footwear, boots and similar articles, parts thereof, falling within CN codes 6401 to 6405, inclusive;*
 7. *Cast iron, iron and steel falling within CN codes 7213 and 7214.*
- ❖ Just a reminder that the RO e-Transport System will be mandatory starting with **July 1st, 2022**.
